Professor Tzeng is now the Secretary General of ASPIRE. He was the Director of the Center for Reproductive Medicine at Taipei Medical University Hospital (TMUH) from 1994 to 2019, Chairman of OB/GYN from 1994 to 2017, and Dean of the College of Medicine at TMU from 2004 to 2013. After obtaining a master's degree in Public Health with a focus on Maternal and Child Health from Harvard University (1980-1981), he completed his fellowship training in Reproductive Endocrinology and Fertility in the Department of Obstetrics and Gynecology at Brigham and Women's Hospital, Harvard Medical School (1981-1983).

Professor Tzeng has undertaken two pioneering projects in Taiwan: the first test-tube baby in 1985 and the first autologous mitochondrial transfer in 2002. He has received the Prize Poster Award from the European Society of Human Reproduction & Embryology (ESHRE) in 2001, 2003, and 2007. Additionally, he was awarded the 2009 Gold Medal for the invention of the "Diagnosis Method of Endometriosis by Detecting Biochemical Markers" by the Ministry of Economic Affairs, Taiwan. In 2012, he received the "Lifetime Achievement Award" from the Global Chinese Association for Reproductive Medicine (GCARM).

Professor Tzeng served as President of the Pacific Rim Society for Fertility and Sterility (PRSFS), now the Pacific Society for Reproductive Medicine (PSRM), from 2008 to 2014 and as President of the Asia Pacific Initiative on Reproduction (ASPIRE) from 2016 to 2018. He is a board member of the International Society for Fertility Preservation (ISFP), the founding president of the Taiwan Endometriosis Society (TES), and the founder of the Taipei Fertility Center (TFC). Professor Tzeng has been an invited speaker at numerous grand conferences around the world more than 190 times. He has published over 230 peer-reviewed papers in the field of reproductive medicine.
